

## ANTI-FERRET IFN- $\gamma$ Polyclonal Antibody

|                               |                                                                                                                                                                                                   |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description:</b>           | Anti-ferret IFN- $\gamma$<br>polyclonal antibody                                                                                                                                                  |
| <b>Catalog Number:</b>        | KP1464FT-100                                                                                                                                                                                      |
| <b>Lot Number:</b>            | HW5186CT                                                                                                                                                                                          |
| <b>Quantity:</b>              | 100 $\mu$ g                                                                                                                                                                                       |
| <b>Concentration:</b>         | 1.0 mg/mL                                                                                                                                                                                         |
| <b>Volume:</b>                | 100 $\mu$ L                                                                                                                                                                                       |
| <b>Host:</b>                  | Rabbit                                                                                                                                                                                            |
| <b>Purification:</b>          | Ferret IFN- $\gamma$ affinity chromatography                                                                                                                                                      |
| <b>Immunogen:</b>             | Recombinant ferret IFN- $\gamma$                                                                                                                                                                  |
| <b>Molecular Weight:</b>      | 18.7 kDa (calculated) for ferret IFN- $\gamma$                                                                                                                                                    |
| <b>Formulation:</b>           | 1X PBS buffer containing 0.09% NaN <sub>3</sub>                                                                                                                                                   |
| <b>Stability and Storage:</b> | Stable for up to twelve months from date of receipt at 2-8°C.                                                                                                                                     |
| <b>Country of Origin:</b>     | USA                                                                                                                                                                                               |
| <b>Applications:</b>          | <b>Western blot</b> – 0.1-2 $\mu$ g/mL<br><b>ELISA</b> – 1-5 $\mu$ g/mL<br>The recommended concentrations are approximate values.<br>Optimal dilutions should be determined for each application. |

### Reagent

Capture Antibody  
Standard Protein  
Detection Antibody  
SA-HRP  
TMB

### Information

2.5  $\mu$ g/mL for 12-24 hours  
1 hour incubation  
0.2  $\mu$ g/mL for 1 hour  
Use as recommended.  
10 minute incubation

### Catalog Number

KP1464FT-100  
RP1187FT-005  
KPB1465FT-050  
AR0068-001  
AR0133-002

## ANTI-FERRET IFN- $\gamma$

### Polyclonal Antibody

|                                     |                                           |      |
|-------------------------------------|-------------------------------------------|------|
| <b>Cross-reactivity:</b><br>(ELISA) | Recombinant bovine IFN- $\gamma$          | None |
|                                     | Recombinant canine IFN- $\gamma$          | None |
|                                     | Recombinant caprine IFN- $\gamma$         | None |
|                                     | Recombinant chicken IFN- $\gamma$         | None |
|                                     | Recombinant cynomolgus IFN- $\gamma$      | None |
|                                     | Recombinant dolphin IFN- $\gamma$         | None |
|                                     | Recombinant equine IFN- $\gamma$          | None |
|                                     | Recombinant feline IFN- $\gamma$          | None |
|                                     | Recombinant human IFN- $\gamma$           | None |
|                                     | Recombinant mouse IFN- $\gamma$           | None |
|                                     | Recombinant ovine IFN- $\gamma$           | None |
|                                     | Recombinant rabbit IFN- $\gamma$          | None |
|                                     | Recombinant swine IFN- $\gamma$           | None |
|                                     | Recombinant zebrafish IFN- $\gamma_{1-1}$ | None |
|                                     | Recombinant zebrafish IFN- $\gamma_{1-2}$ | None |

**Warranty:** Products are warranted by Kingfisher Biotech, Inc. to meet stated product specifications and to conform to label descriptions when used, handled and stored according to instructions. Unless otherwise stated, this warranty is limited to one year from date of sale or expiry date, whichever comes first. Kingfisher Biotech's sole liability for the product is limited to replacement of the product or refund of the purchase price. Kingfisher Biotech products are supplied for research applications. They are not intended for medicinal, diagnostic or therapeutic use. The products may not be resold, modified for resale or used to manufacture commercial products without prior written approval from Kingfisher Biotech, Inc.
