

# ANTI-CANINE CCL5

## Polyclonal Antibody

|                               |                                                               |
|-------------------------------|---------------------------------------------------------------|
| <b>Description:</b>           | Anti-canine CCL5 polyclonal antibody                          |
| <b>Catalog Number:</b>        | KP2083D-100                                                   |
| <b>Lot Number:</b>            | LW5358KW                                                      |
| <b>Quantity:</b>              | 100 µg                                                        |
| <b>Concentration:</b>         | 1.0 mg/mL                                                     |
| <b>Volume:</b>                | 100 µL                                                        |
| <b>Host:</b>                  | Rabbit                                                        |
| <b>Alias:</b>                 | RANTES                                                        |
| <b>Purification:</b>          | Canine CCL5 affinity chromatography                           |
| <b>Immunogen:</b>             | Recombinant canine CCL5                                       |
| <b>Molecular Weight:</b>      | 7.9 kDa (calculated) for canine CCL5                          |
| <b>Formulation:</b>           | 1X PBS buffer containing 0.09% NaN <sub>3</sub>               |
| <b>Stability and Storage:</b> | Stable for up to twelve months from date of receipt at 2-8°C. |
| <b>Country of Origin:</b>     | USA                                                           |
| <b>Applications:</b>          | <b>Western blot</b> - 0.1-2 µg/mL<br><b>ELISA</b> - 1-5 µg/mL |

The recommended concentrations are approximate values. Optimal dilutions should be determined for each application.

| <u>Reagent</u>     | <u>Information</u>        | <u>Catalog Number</u> |
|--------------------|---------------------------|-----------------------|
| Capture Antibody   | 2.5 µg/mL for 12-24 hours | KP2083D-100           |
| Standard Protein   | 1 hour incubation         | RP0454D-005           |
| Detection Antibody | 0.2 µg/mL for 1 hour      | KPB2084D-050          |
| SA-HRP             | Use as recommended.       | AR0068-001            |
| TMB                | 5 minute incubation       | AR0133-002            |

# ANTI-CANINE CCL5

## Polyclonal Antibody

|                                     |                                    |      |
|-------------------------------------|------------------------------------|------|
| <b>Cross-reactivity:</b><br>(ELISA) | Recombinant bovine CCL5            | None |
|                                     | Recombinant chicken CCL5           | None |
|                                     | Recombinant cynomolgus monkey CCL5 | None |
|                                     | Recombinant dolphin CCL5           | None |
|                                     | Recombinant equine CCL5            | None |
|                                     | Recombinant feline CCL5            | None |
|                                     | Recombinant ferret CCL5            | None |
|                                     | Recombinant guinea pig CCL5        | None |
|                                     | Recombinant hamster CCL5           | None |
|                                     | Recombinant human CCL5             | None |
|                                     | Recombinant mouse CCL5             | None |
|                                     | Recombinant ovine CCL5             | None |
|                                     | Recombinant rabbit CCL5            | None |
|                                     | Recombinant swine CCL5             | None |
|                                     | Recombinant turkey CCL5            | None |

**Warranty:** Products are warranted by Kingfisher Biotech, Inc. to meet stated product specifications and to conform to label descriptions when used, handled, and stored according to instructions. Unless otherwise stated, this warranty is limited to one year from date of sale or expiry date, whichever comes first. Kingfisher Biotech's sole liability for the product is limited to replacement of the product or refund of the purchase price. Kingfisher Biotech products are supplied for research applications. They are not intended for medicinal, diagnostic, or therapeutic use. The products may not be resold, modified for resale, or used to manufacture commercial products without prior written approval from Kingfisher Biotech, Inc.
